The following courses or programs were approved with changes:

- **GLST/ECON/ESRM/HIST/POLS/SOC 337 Global Cities** **New**
- **HIST 412 Law and Society** **Mod**

GE Committee Visit. The GE Committee members were invited to discuss the UDIGE portion of the General Education Requirement with the Curriculum Committee. The Curriculum Committee found some confusion in the interpretation of the current wording and practice of this requirement, mainly the three free elective units of the nine UDIGE requirements. After full discussion, Phil Hampton agreed to prepare a clarification statement of practice that will be incorporated into these minutes and disseminated to the campus community for procedural reasons. In addition, these procedural notes will be incorporated into the Curriculum Guidelines for future referral. This is not new policy therefore not required to go through the Senate process. It is a clarification issue.

4. **Course Numbering.** Kathy distributed a copy of the current course numbering sequence of the committee for review. After some discussion it was determined no change was necessary. Kathy will disseminate the list to the committee for reference purposes.
5. **Next meeting:** April 6, 2009. Kathy will not be available for this meeting. Andrea Grove agreed to take notes.
