

Ormond Beach Observers--a coalition of concerned citizens and community groups--was created in 1987. The OBO has challenged the decision-makers to consider sustainability issues as they decide the future of the area.

Members are:

California Native Plant Society	Conejo Audubon Society
Environmental Coalition of Ventura County	League of Women Voters of Ventura County
Channel Islands Council of Divers	Oxnard Beautiful
	Sierra Club--Sespe Group
	Surfriders Association
	Surfside III Condo Association
	Ventura Audubon Society

Over the years, OBO has kept the public apprised of issues of import. Members have testified before decision-making groups, such as the Oxnard Planning Commission and City Council.
