

**Please Join us
at our 3rd Annual
Rio Vista Elementary School
Environmental Awareness and Career Day**

What: *The Third Annual Rio Vista Elementary School Environmental Awareness and Career Day.*

This full day event will give Rio Vista students an opportunity to learn about a wide variety of topics and careers associated with the environmental and natural resources fields. It will feature classroom presentations by local environmental groups, interactive hands-on exploration and investigations, and one-one and group visits with role models. If you are able to serve as a role model, please fill out the attached volunteer form and fax it to Rio Vista Elementary School at 661-251-7466, attention Linda Valdes.

When: *Friday, April 3rd, from 8:30 am - 3:15 pm.*

**Where: *Rio Vista Elementary School ,
20417 Cedar creek Street Canyon Country, CA 91351***

Why: *Rio Vista Elementary School and NHEC are both committed to helping build the next generation of environmental stewards and leaders.*

We are excited about collaborating together, for the benefit of the great students at Rio Vista. For the last ten years, NHEC has run programs that educate minority high school and college students in an array of environmental fields. As the demographics of California have changed, so too have the environmental issues that face us all. Both Rio Vista and NHEC know that California's environmental challenges will require a new generation of leaders. We seek to inform, educate, and train this emerging generation, and the 3rd annual Rio Vista Elementary Environmental Career Day is a step in that direction.
