Elaine,

I left a long message for you a few minutes ago. I wanted to suggest we meet at UCLA sometime after April 9th; primarily because all my documents, pictures and awards are at the UCLA Chicano Studies Research Center. I also wanted to talk to you about all financial gains from my participation in your "I Know a Woman Like That" be awarded or donated to the Center's "Mujer Initiative" - started with opening of my Archives March 12th. What do you think about this idea/arrangement?

Lupe

Great, I will be in touch when we have some breathing time from this horrible polluting factory that wants to station itself on our Malibu/Oxnard Shores.

Dear Lupe,

It was wonderful to speak with you today about our documentary. I very much look forward to meeting with you week after next at your home in Oxnard.

Our line producer Karly Meola and I will drive up to meet you when you know what dates are open and clear on your calendar.

Thanks so much for your quick response!

Elaine
