

March 2, 1987

Dr. Gloria Lothrop
[REDACTED]

Dear Dr. Lothrop:

On behalf of the Ventura County Commission for Women, we thank you for your fine presentation at our women's history luncheon on February 21 in Ventura. Your remembrances as Nellie Gird and wonderings about "the future" helped each of us to see something of what her life, and thousands of other women's lives, must have been like, and to feel connected to those women. We feel inspired to leave written information about ourselves, our lives and our work, for future women, in the hope that they too will still feel the connection.

We are delighted with the success of our first women's history luncheon and look forward to its becoming an annual event. Thank you for helping us get off to such a wonderful start.

Sincerely,

Brook A. Hubbell
Co-Chair

Arleen S. Rosenfield
Co-Chair

P.S. Enclosed is a clipping about the luncheon. You can tell that you had the reporter's attention as well as ours.
