

STEM Initiative Survey of K-12 and Community College Relations

Dear Colleagues:

The Provost has created a short-term STEM (Science Technology Engineering Mathematics) Initiative Taskforce to identify the priorities and tasks to meet the STEM strategic initiative for the campus. One of these tasks involves assessing the current state of STEM relationships with our local K-12 schools and community colleges in an effort to build cohesive and stronger partnerships that assist in developing our STEM pipeline.

Please list the STEM activities and the K-12 schools and/or Community Colleges you have worked with, when, and in what capacity (grants/contracts, professional development, student projects, etc) since coming to CSU Channel Islands. Of course, your best recollection is appreciated but this task is not meant to take more than 5-10 minutes.

If you would be so kind to take a few minutes to provide the information by January 29th, our report can be completed by the mid-February deadline. Please send this information to: [parissa.keshavarzian465@dolphin.csuci.edu](mailto:parissa.keshavarzian465@dolphin.csuci.edu).

Thank you,  
Jeanne Grier on behalf of the (short-term) STEM Initiative Taskforce
