

CSUCI
2008 Strategic Plan
Community Focus Group
Notes

Future for CSUCI

- More sports and activities
- Be more connected to town
 - bikes
- Understand Hispanic population
 - more outreach
- Maintain character and beauty
- Low water planning
- Transitional degree program
 - Eg: ex military
- University's influence in planning voice
- More community exposure
 - Eg: classes for seniors (lifelong learners)
- Destination campus
 - Excited to come here
- Be a community university
- Teach a college course at a high school campus
- Connect high school students
 - Eg: Nursing track
- Focus/clarify demand for community destination campus
- Campus of "First Choice"
- Classes stay small
- Retaining faculty & students
- Distance learning → working adults especially graduate school MBA
- Engineering school → 11,000 on base, ½ engineers
- Outreach
 - For example, Science class, explain what Engineers do
- Segue Program
- Easy to ride bikes from town to campus
- Degreed accountants
- Emphasize how faculty, admin, staff work together
- Continue Promoting
- Encourage "green" campus, exercise, bicycles
- More Graduate programs
 - Include EDD
- Engage the Community
Reach out via service learning
- UPS partnership
 - \$ For building, 25 million for north campus
 - Impacts curriculum and community

- Security issues campus public safety
 - Spread out facilities
- Partnerships with local high school and community colleges
- More promotion that we are here
- Accessible to public
 - Night courses
- More events to draw families
- Partner with schools
- Senior citizens geriatric area/program
- Children “be college students”
 - 6, 7, 8th graders on CSUCI campus
- Need to produce skilled workers
- Visual plus P.A.

University Serves County

- Summer programs for High School Students
 - Enrichment
- Outreach to local non-profit organization
 - Professional training needs
- Post bac. Programs
- P-16 programs, talk to high school students PipelineMap pathway
- In high school “Richland College High school”
- Advanced research labs + space
- Be aware of Δ environment

Academic

- Access to constituents now rely on Autos
 - Expensive
- Need alternatives to
 - Online course mix
 - International programs
 - Science orientation
 - Other languages in Spanish
 - Teams of students working on real problems
